

Mid-South Engineering Company

Issue No 14 Working Together

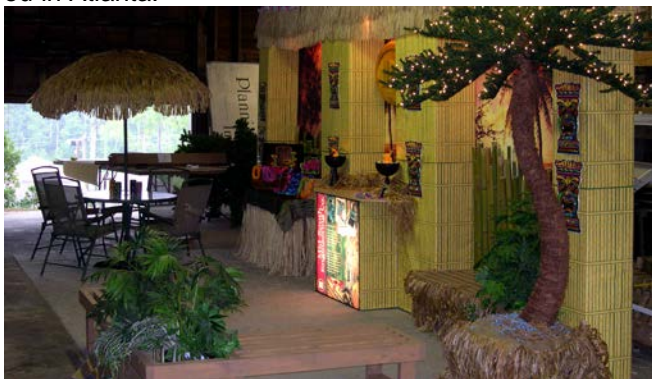

Second Quarter, 2005

SFPA Expo 2005

Since we serve the building products industry along with others, and with the upcoming machinery show in Atlanta, we want to use this quarter's newsletter as a reminder of the event and in addition acquaint you with a few of our employees who will be manning our booth.

The 2005 Forest Products Machinery & Equipment Exposition in Atlanta, Georgia is coming up soon. The event is scheduled for June 23 – June 25, 2005. We invite you to come by our booth, No. 1533. This year we have developed a theme: "A Touch of the Tropics", a relaxing and fun get-a-way. Come by for a chat with our personnel. Also, this year Bill Craig, a consultant engineer for Mid-South with present "Application of Value Engineering to the Wood Products Industry" (T5 and T11-9:00am-11:00am Friday and Saturday) just one of the technical seminars scheduled during this event. You can register on-line at www.sfpa.org/expo. We hope to see you in Atlanta.

Mid-South Faces

Lee Murphy, P.E.
President

Since 1976, Lee has served as a project manager, equipment design and control, and was executive Vice President prior to assuming his present position.

Larry G. Stephens, P.E.
CEO

Larry was one of four original founders of Mid-South and is currently serving as CEO. He is also responsible for the industrial projects not related to forest products industry.

Jerry Brown, P.E.
V.P. – Project Manager

Jerry has led the solid wood group since 1971. His roles included: Project Engineer/Manager. He is responsible for project planning and execution.

Bruce Westerman, P.E., R.F., S.R.
Engineer and Forester

Bruce is currently in the Project Planning and Developing group. He has a masters degree in Forestry from Yale and is also involved in Capital Project Management.

Chris Brown, P.E.
Project Engineer

Chris is responsible for managing and executing multi-million dollar capital improvement projects. He is also in charge of the Electronic Project Information Library, an important link to our clients.

"The Barn" built in the 1930's to house Welsh ponies, serves as Mid-South's offices.

John Westerman, P.E.

Project Engineer

As a project engineer, John has provided design and management assistance for major greenfield projects. He has also provided complete project scheduling services and project cost estimating.

David Lamb

Design/Drafting Manager

David has served as senior design coordinator with extensive design experience prior to assuming his present role.

Kenny Oliver

Senior Electrical Designer

Kenny's electrical experience includes design and rework of complete plant power distribution and control systems; preparation of specifications and bid packages.

Jason Garner, E.I.

Staff Engineer

Jason is currently in the project planning and development group. He is responsible for project scheduling services and project cost estimating.

Terry Tompkins

Senior Designer

Terry has extensive mechanical experience in the wood products industry and equipment manufacturing design.

Sandy McWilliams

Design Coordinator

Sandy is currently with the project planning and development group. She is responsible for project layouts, graphical reports, and presentations to our clients. She served as Design/Drafting Manager before assuming her present role.
