PROJECT MANAGEMENT

Experience and Innovation Working for You

Upon receiving project funding and approval, Mid-South can provide project management. Our staff is equipped with diverse experience in project management from small studies to large manufacturing facilities. Our project managers monitor the scope of the project including time, budget and quality. We monitor and control the project by evaluating preliminary design reports, continue into implementation through construction and finally evaluate the project through commissioning when requested.

Project Management:

- Project Scheduling
- Monitoring & Control of Project Scope
- Contract & Invoice Administration
